

## **Enrichment Offer at Oasis Academy Putney**

Here at Oasis Academy Putney, we aim to provide all children with a challenging and stimulating curriculum. It is vital to us that every single pupil at our school reaches the highest possible standard; we want to push our pupils to be the very best versions of themselves. We are continuously working with class teachers to support them in providing a rich and challenging curriculum where pupils thrive on pushing themselves out of their comfort zone and have real love and passion for learning. A comfort zone is a beautiful place, but nothing can ever grow there!

We also recognise that some pupils are achieving, or have the potential to achieve, significantly higher than average for their year group. With inclusivity being at the heart of what we do, it is our responsibility to enable these pupils to reach the highest possible standards. Therefore, these pupils will be offered additional provision across the academic year. We will be introducing an enrichment provision that we will offer to our highest attainers to excite, challenge, and intrigue them. The enrichment provision will be delivered through workshops across the academic year where they will focus on tasks that are stretching and demanding. These workshops will create an environment whereby the pupils can engage in a higher and deeper level of understanding.

The enrichment provision we will be offering to our highest attainers will excite and intrigue them and provide them with knowledge that they can then share with their peers in the classroom; the additional input will not only benefit these pupils but benefits all pupils; we anticipate that the knowledge pupils acquire from our enrichment workshops will be feed beautifully back into the classroom where they can share all of they have learnt through meaningful partner talk and high-quality classroom discussion.

Some children may be performing at a very high standard in all of these subjects and will therefore be chosen for all three groups. We are committed to ensuring that there is transparency and equity in the allocation of places to the groups.

### Selection for the enrichment programme

The Senior Leadership Team have agreed that the following criteria will be used to allocate places in these enrichment sessions:

- Pupils' end of year tests scores.
- Pupils' end of year teacher assessment.
- Class teachers' views of pupils' capacity to access and engage with the challenging material presented.

Parents will be informed prior the to the workshops taking place.

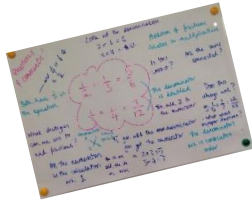

The enrichment workshops we will be running will be as follows:

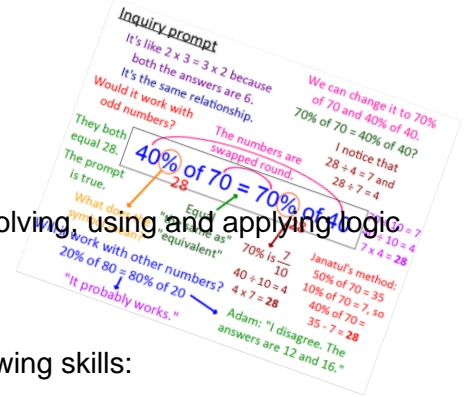

## Writing Workshop

This is a highly creative, engaging writing session where the children will use a 'hook' as a stimulus for writing. We will look closely at a range of lenses using our 'Write Stuff' approach and explore a range of literary devices to create excellent pieces of high-quality writing. Following on from these sessions, it will be really important that the work produced is celebrated at home and in school.

## Mathematical Enquiry

This is a structured course with a focus on mathematical enquiry, problem solving, using and applying logic and formulating generalisations based on evidence.

The aim of this workshop is to support pupils in the development of the following skills:

- **Enquiry:** defining a problem; predicting an outcome; testing a conclusion
- **Creative thinking:** generating and extending ideas; suggesting a hypothesis; looking for alternative outcomes.
- **Reasoning:** making and explaining deductions; reaching decisions informed by evidence.
- **Evaluation:** evaluating evidence and reaching conclusions; making generalisations.

## Scientific Enquiry

The aim of the programme is to accelerate pupils' scientific enquiry skills. All learning involves practical investigations and pupils will have the opportunities to present their finding at the end of the workshop.

## Timetable

Creative Writing - RH	Year 1, Year 2	Friday 3 <sup>rd</sup> December 9:00-12:00
Creative Writing - RH	Year 3, Year 4, Year 5	Friday 3 <sup>rd</sup> February 2021 9:00- 12:00
Mathematical Enquiry - RP	Year 1, Year 2	Monday 7 <sup>th</sup> February 2021 9:00- 12:00
Mathematical Enquiry - RP	Year 3, Year 4, Year 5	Monday 10 <sup>th</sup> January 2021 9:00- 12:00
Scientific Enquiry	Year 1, Year 2	TBC
Scientific Enquiry	Year 3, Year 4, Year 5	TBC

*Please note: We will be continuously reviewing and improving our enrichment offer and hope to be able to provide workshops in a range of subject areas as we fully appreciate that children excel in a range of areas. Bear with us!*
